EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Esatto on 8/16/04.

The application has been amended as follows:

In Claim 1, line 12 change "said" to - - a - -. Also, in the specification page 7, line 23 insert the number - - 1 - - after the word "Fig.".

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Kodama et al. (US 5,963,673) teaches a vector retrieval method using a motion vector detector that then selects the mode. This is able to determine whether the coding is an intra-frame or inter-frame. However, Kodama et al. fails to teach the conditions taught in lines 12-17 of Claim 1, which the examiner was unable to find. These conditions are taken with all of the other elements in the claims we considered non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
